EXECUTIVE SUMMARY

Recently graduated Full Stack Java Developer skilled in building responsive, secure, and scalable web applications using modern technologies like React.js and Spring Boot. Adept at integrating third-party services, managing databases, and deploying full-stack solutions. Quick learner with strong problem-solving skills, ready to contribute to real-time software development projects in a collaborative environment.

SKILLS

Backend	Core Java, Spring Boot, Hibernate, Maven
Frontend	HTML, CSS, JavaScript, React.js, Bootstrap
Database	MySQL, Firebase Firestore
Integrations	Firebase Auth, Google Login, TMDB API, AES Encryption
Deployment	Vercel, Firebase Hosting, Netlify
Tools	Git, IntelliJ, Eclipse, Postman

PROJECTS

Password Generator App [GitHub Link](#)

- Developed a password generator application to create **strong passwords** quickly
- Integrated secure storage for passwords with hint names using **Firebase Firestore**.
- Implemented **Google login** for user authentication to personalize user access.
- Added **AES encryption** to ensure passwords are securely handled and stored.
- **Tech Stack:** React.js, Firebase Auth, Firestore DB, AES Encryption

Netflix Clone [GitHub Link](#)

- A clone of the popular streaming website Netflix made using **React**.
- Integrated **The Movie Database (TMDB) API** to display trending and searchable content.
- Enabled users to browse, watch previews, and search for movies and TV shows.
- Designed a **responsive UI** with a Netflix-style layout using CSS Modules.
- **Tech Stack:** React.js, Axios, TMDB API, CSS Modules

OLX Clone [GitHub Link](#)

- Developed a full stack OLX clone using **React and Firebase**.
- Integrated **Firestore** email/password authentication for secure login and registration.
- Implemented product listing with image upload using **Firestore Storage**.
- Used **Firestore** to store and retrieve user and listing data in real-time.
- **Tech Stack:** React.js, Firebase Auth, Firestore, Firestore Storage

EDUCATION

Bachelor of Engineering – Computer Science Engineering	
Sri Venkateshwara Engineering College	2021 – 2025

Intermediate – MPC	
Prathibha Junior College	2019 – 2021

Secondary School Certificate (SSC)	
Krishnaveni High School	2019

LANGUAGES

English	– Professional
Tamil	– Native
Telugu	– Fluent
